

Customer Success Story

Fast, efficient and reliable document
generation directly from Salesforce

[▶ aveneer.forvendi.com](https://aveneer.forvendi.com)

Merito uses Aveneer to automate document creation in its recruitment process, saving time and serving future students more effectively.

|| *With Aveneer, we are just one click away from getting all documents for each student - accurate and fast. Our employees now have more time to serve our students better."*

Robert Juszczak, Head of Sales at MERITO

Customer Profile

Merito is the largest network of private universities in Poland, with campuses in 11 cities. With over 29 years of experience in higher education, it has served more than 325,000 graduates.

Challenge

- Complex and tedious enrollment process, requiring extensive manual input and management.
- The previous document generation tool was slow, requiring 30 minutes to prepare a set of documents for a single student.
- The old tool was prone to errors, leading to disruptions in the enrollment process.

Aveneer Value

- Document preparation time reduced from 30 minutes to less than 6 minutes per student.
- Automated document generation with Salesforce integration allows for 5x faster processing and 500% more documents generated per run.
- Saves at least 200 man-hours per month by eliminating the need for additional document collation tasks.
- Frees up staff to focus on student engagement and problem-solving, leading to increased employee and user satisfaction.
